\*1180 Series subject to longer lead times and additional charges.

### 10-Day 1080 DuraLineSeries RapidResponse® Program.

- Up to 25 compartments shipped within 10 workdays after order approval at no extra charge.
- Choose from 18 standard colors and patterns.
- Floor-Anchored, Overhead-Braced, Ceiling-Hung, Floor-To-Ceiling mounting configurations.
- Satin-finish stainless steel hardware.
- Optional concealed full-height hardware.
- 10-Day Program excludes 1180 Series, Gap-Free, and Maximum-Height privacy options.

Panels of solid color or non-directional patterns wider than 60" (1525mm) will be manufactured in two pieces for use with a field-installed horizontal aluminum "H" channel covering the seam furnished at an additional cost. Wood grain and directional patterns have vertical grain direction only. Panels of wood grain and directional patterns wider than 60" (1525mm) cannot be manufactured because there isn't a method to secure the vertically installed "H" channel. Colors on this guide are swatch representations of solid phenolic material. Refer to manufacturer's color chip samples for absolute color fidelity. Color chips are available from Bobrick on request. Additional colors are available and may be subject to longer lead times and additional charges.

Note: Minor edge nicks and random color variations are a normal consequence of manufacturing material containing natural fibers. SierraSeries Solid Color Reinforced Composite (SCRC) colors are printed reproductions and are for descriptive purposes only. Request actual color samples for color confirmation. SierraSeries material can vary in color between thicknesses and production batches. When color consistency is critical, solid phenolic 1080 DuraLineSeries is recommended.
